Polycom® VVX® 310

Powerful entry-level business media phones for today'scubicle workers handling a low to moderate volume of calls delivering crystal clear communications

The Polycom® VVX® 300 is an expandable business media phone that delivers crystal clear communications, enhanced collaboration and personal productivity.

Simplicity and ease-of-use

The VVX 300 phone brings high-quality, cost effective solutions to any environment through advanced UC features. The intuitive user interface of the VVX 300 makes usability and navigation easy and requires minimal training.

Customizable and expandable

The VVX 300 phone provides personalized information at a glance, through built-in web applications and custom backgrounds. The VVX 300 phone also comes ready for future expansion modules as your users' needs and business grows.

Unsurpassed voice quality and clarity

The VVX 300 delivers breakthrough Polycom® HD Voice™ quality for lifelike conversations while minimizing fatigue making calls more efficient and productive.

Maximize productivity

Give your front line workers the best experience with this high quality two-line business media phone.

Market-leading open standards interoperability

Designed for enhanced interoperability, the VVX 300 leverages and complements the other existing IT investments in your business. With the broadest call server interoperability in the industry, the Polycom VVX 300 entry level business media phone can become the flexible and future-proof foundation for any organization's unified communications strategy.

Benefits

- Improve productivity for cubicle workers and call center operators through an intuitive easy to use user interface
- Make more efficient and productive calls with the unparalleled voice clarity of Polycom® HD Voice™
- Leverage previous IT infrastructure investments deploy VVX 300 business media phones on your existing network without needing to upgrade your call control platform

Polycom® VVX® 300 Series

- 3.5-in TFT LCD display at QVGA (320x240 pixel) resolution, 4:3 aspect ratio
- Screensaver and digital picture frame mode
- On-screen virtual keyboard
- · Adjustable base height

FEATURE KEYS

- 4 context-sensitive "soft" keys
- context-sensitive "soft" keys
- Menu Key
- 2 volume control keys
- Illuminated mute key
- Illuminated headset key
- Illuminated hands-free speakerphone key

HEADSET AND HEARING AID COMPATIBILITY

- Dedicated RJ-9 headset port
- Hearing aid compatibility ITU-T P.370 and TIA 504A standards
- Compliant with ADA Section 508 Subpart B 1194.23 (all)
- Hearing aid compatible (HAC) handset for magnetic coupling to hearing aids
- Compatible with commercially-available TTY Adapter equipment
- Support USB Headsets (see TB37477 for list of compatible headsets)

AUDIO FEATURES

- Polycom Acoustic Clarity[™] technology providing full-duplex conversations, acoustic echo cancellation and background noise suppression
- Type 1 compliant (IEEE 1329 full duplex)
- Frequency response 100 Hz 20 kHz for handset, optional headset and hands-free speakerphone modes
- Codecs: G.729AB,
- Individual volume settings with visual feedback for each audio path
- Voice activity detection
- Comfort noise generation
- DTMF tone generation (RFC 2833 and in-hand)
- Low-delay audio packet transmission
- Adaptive jitter buffers

CALL HANDLING FEATURES

Distinctive incoming call treatment/call waiting

- Call timer and call waiting
- Call transfer, hold, divert (forward), pickup
- Called, calling, connected party information
- Local three-way audio conferencing
- Intercom
- Call park
- One-touch speed dial, redial missed call notification
- Do not disturb function
- Electronic hook switch capable

VOICEMAIL

- Message waiting light
- Voicemail notification via email
- Voicemail to email (WAV file)
- 5 min per message
- 90 min message max
- Remote access to voicemail
- Web-based access to voicemail
- Voicemail forwarding via email
- Group voicemail distribution

OTHER FEATURES

- Local feature-rich GUI
- Time and date display
- User-configurable contact directory and call history (missed, placed and received)
- Unicode UTF-8 character support.
 Multilingual user interface encompassing
 Chinese, Danish, Dutch, English (Canada/
 US/UK), French, German, Italian,
 Japanese, Korean, Norwegian, Polish,
 Portuguese, Russian, Slovenian, Spanish,
 Swedish

PROTOCOL SUPPORT

- IETF SIP (RFC 3261 and companion RFCs)
- Network
- Two-port 10/100/1000 Mbps Ethernet switch
- Dynamic host configuration protocol (DHCP) network setup
- Time and date synchronization using SNTP
- QoS Support IEEE 802.1p/Q tagging (VLAN), Layer 3 TOS, and DSCP
- Network Address Translation (NAT) support – static
- RTCP support (RFC 1889)
- Event logging
- Local digit map
- Hardware diagnostics
- Status and statistics

SECURITY

- Transport Layer Security (TLS)
- Encrypted configuration files3
- Digest authentication

Polycom® VVX® 600 10-Line

A premium business media phone delivering best-in-class desktop productivity for busy corporate executives and managers.

The Polycom® VVX® 600 phone is a premium business media phone designed to enhance collaboration and personal productivity.

Simplicity and ease of use

The Polycom VVX 600 phone is built for executives and managers who need a powerful, yet intuitive, expandable office phone that helps them stay connected to lead your organization. Founded on the behavior common to smartphones and tablets, the intuitive gesture-based, multi-touch user interface of the Polycom VVX 600 phone makes navigation easy and requires minimal training. With its combined ergonomic design, Polycom® HD Voice[™] quality and a large, high resolution color, multi-touch screen, the Polycom VVX 600 business media phone is ideal.

Maximize productivity

Give your executives and managers the best unified communications (UC) experience and the industry's highest quality business media phone. Designed for a broad range of environments from small and medium businesses to large enterprises, the Polycom VVX 600 improves personal productivity.

Highly customizable and expandable

The Polycom VVX 600 phone provides personalized information at a glance, through built-in web applications and a digital photo frame. Polycom VVX 600 users access streaming content using the included video playback feature.

Benefits

- Improve productivity for executives and managers through larger, color multi touch display and more line appearances
- Make more efficient and productive calls with the unparalleled voice clarity of Polycom® HD Voice™
- Improve work space mobility through Bluetooth headset integration
- Leverage previous IT
 infrastructure investments
 deploy Polycom VVX 600
 business media phones on your
 existing network without needing
 to upgrade your call control
 platform

Polycom® VVX 600

Conference Phone

Advanced IP conference phone with Polycom HD Voice™ clarity, designed for small conference rooms and executive offices

The Polycom® SoundStation® IP 5000 conference phone delivers remarkably clear conference calls for small conference rooms and executive offices. It features Polycom HD Voice™ technology, broad SIP interoperability, and a modern design that is ideal for smaller rooms—all at an affordable price.

With Polycom HD Voice technology, the SoundStation IP 5000 conference phone boosts productivity and reduces listener fatigue by turning ordinary conference calls into crystal-clear, interactive conversations. It captures both the deeper lows and higher frequencies of the human voice for conference calls that sound as natural as being there.

For all calls, the SoundStation IP 5000 conference phone delivers advanced audio performance that is designed for executive offices and smaller conference rooms with up to 6 participants. From fullduplex technology that eliminates distracting drop-outs to the latest echo cancellation advancements, only Polycom can deliver a conference phone experience with no compromises. Conference calls are made more productive and efficient by three sensitive microphones with 360° coverage that allow users to speak in a normal voice and be heard clearly

from up to 7 feet away. The phone also features technology that resists interference from mobile phones and other wireless devices, delivering clear communications without distractions.

The SoundStation IP 5000 leverages Polycom's strong history in both conference phone and VoIP technology to deliver the most robust standards-based SIP interoperability in the industry.

Robust provisioning, management, and security features make Polycom's family of IP conference phones the only choice for meeting rooms in SIP-based environments. Integrated Power over Ethernet (PoE) simplifies setup, with an optional AC power kit available for non-PoE environments. Plus, the SoundStation IP 5000 conference phone includes a high-resolution backlit display for vital call information and multilanguage support.

Benefits

- Unparalleled clarity Polycom HD Voice makes your conference calls sound amazingly clear and life-like
- More productive conference calls – Patented Polycom Acoustic Clarity[™] technology delivers the best conference phone experience with no compromises
- Ideal for smaller rooms 7-foot microphone pickup and a small footprint designed for executive offices and smaller conference rooms with up to 6 participants
- Advanced IP feature support the most feature-rich family of IP conference phones available, with advanced call handling, security, and provisioning features

POWER

- IEEE 802.3af Power over Ethernet (built in)
- Optional external universal AC power supply kit: 100-240V, 0.4A, 48V/19W

DISPLAY

- Size (pixels): 248 x 68 (W x H)
- White LED backlight with custom intensity control

KEYPAD

Conference Phone

Next-generation IP conference phone designed for small to midsize rooms

Next-generation IP Conference Phone

The SoundStation IP 6000 is an advanced IP conference phone that delivers superior performance for small to midsize conference rooms. With advanced features and remarkable voice quality, the SoundStation IP 6000 offers a price/ performance breakthrough for the small business.

The SoundStation IP 6000 boosts productivity and reduces listener fatigue by turning ordinary conference calls into crystal-clear interactive conversations. It delivers high-fidelity

audio from 220 Hz to 14 kHz, capturing both the deeper lows and higher frequencies of the human voice for conference calls that sound as natural as being there.

For all conference calls, the SoundStation IP 6000 delivers advanced audio performance that far exceeds previous generations of conference phones. From full-duplex technology that eliminates distracting dropouts to the latest echo cancellation advancements, only Polycom can

deliver a conference phone experience with no compromises. Plus, Automatic Gain Control intelligently adjusts the microphone sensitivity based on where participants are seated in the conference room, making the conversations clearer for all participants. It also features technology that resists interference from mobile phones and other wireless devices, delivering clear communications without distractions.

SIP-Based IP Conference Phone

Astounding voice quality and clarity from the world's most advanced IP conference phone

The Polycom® SoundStation® IP 7000 is a breakthrough conference phone that delivers outstanding performance and a robust feature set for SIP-based VoIP platforms. It is the most advanced conference phone ever developed, and is ideal for executive offices, conference rooms, and boardrooms.

The SoundStation IP 7000 features Polycom® HD Voice™ technology, boosting productivity and reducing listener fatigue by turning ordinary conference calls into crystal-clear interactive conversations. It delivers high-fidelity audio from 160 Hz to 22 kHz, capturing both the deeper lows and higher frequencies of the human voice for conference calls that sound as natural as being there.

For all conference calls, the SoundStation IP 7000 delivers advanced audio performance that far exceeds previous generations of conference phones. From full-duplex technology that eliminates distracting dropouts to the latest echo cancellation advancements, only Polycom can deliver a conference phone experience with no compromises.

The SoundStation IP 7000 is the most flexible and expandable conference phone ever developed. Connect two units together for increased loudness and microphone pickup, as well as multiple call control interfaces in the conference room. Connect up to two optional expansion microphones to a single phone to ensure close proximity for everyone in the room.

In the SoundStation IP 7000, Polycom has combined its rich history in voice conferencing and VoIP technology to develop a groundbreaking new conference phone that is the clear choice for SIP-enabled environments. It shares the same SIP phone software with Polycom's award-winning Polycom® SoundPoint® IP desktop phones—the most comprehensive, reliable and feature-rich SIP products in the industry.

Benefits

- Polycom® HD Voice™
 unparalleled clarity to make your
 conference calls more efficient
 and productive
- Polycom® Acoustic Clarity™ technology—delivers the best conference phone experience with no compromises
- Flexible configuration options—
 multi-unit connectivity,
 expansion microphones and
 integration with Polycom HDX
 room telepresence solutions to
 meet the needs of many different
 types of rooms
- Strong, robust SIP software leverages the most advanced SIP endpoint software in the industry, with advanced call handing, security, and provisioning features

Additional Polycom SoundStation IP 7000 features/benefits

- Equipped with built-in Power over Ethernet (PoE). An optional A/C power kit also available.
- 20 ft (6.1 m) microphone pickup, and even more with optional expansion microphones or multi-unit connectivity, reaching all corners of the room.
- Automatic Gain Control intelligently adjusts the microphone sensitivity based on where participants are seated in the conference room.
- Features technology that resists interference from mobile phones and other wireless devices, delivering clear communications without distractions.

SoundStation® IP 7000

Cisco SPA 303 3-Line IP Phone

Basic and Affordable IP Phone for Business or Home Office

Highlights

- 3 line phone business-class IP phone
- Connects directly to an Internet telephone service provider
- Dual switched Ethernet ports, speakerphone, caller ID, call hold, conferencing, and more
- Easy installation and highly secure remote provisioning, as well as menu-based configuration
- Supports Session Initiation Protocol (SIP)

Telephony Features

- Three voice lines
- Pixel-based display: 128 x 64 monochrome graphical liquid crystal display (LCD)
- Line status: active line indication, name and number
- Menu-driven user interface
- Speakerphone
- Call hold
- Music on hold
- Call waiting
- Caller ID name and number
- Call transfer: attended and blind
- Three-way call conferencing
- Multiparty conferencing via external conference bridge
- Automatic redial of last calling and last called numbers
- On-hook dialing
- Call pickup: selective and group
- Call park and unpark
- Call forwarding: unconditional, no answer, and on busy
- Call logs (60 entries each): made, answered, and missed calls

- Redial from call logs
- Personal directory with auto-dial (100 entries)
- Do not disturb
- Digits dialed with number autocompletion
- Anonymous caller blocking
- On-hook default audio configuration (speakerphone and headset)
- Multiple ring tones with selectable ring tone per line
- Called number with directory name matching
- Ability to call number using name: directory matching or via caller ID
- Subsequent incoming calls show calling name and number
- Date and time with support for intelligent daylight savings
- Call duration and start time stored in call logs
- Call timer
- Speed dialing (8 entries)
- Intercom
- Group paging

Cisco SPA 303 3-Line IP Phone

Hardware Features

- Pixel-based display: 128 x 64 monochrome LCD graphical display with backlight
- Dedicated illuminated buttons for:
 - Audio mute on/off
 - Headset on/off
 - Speakerphone on/off
- 4-way rocking directional knob for menu navigation
- Voicemail message waiting indicator
 light
- Voicemail message retrieval button
- Dedicated hold button
- Settings button for access to feature, setup, and configuration menus

- Volume control rocking up/down knob controls handset, headset, speaker, ringer
- Standard 12-button dialing pad
- High-quality handset and cradle
- Built-in high-quality microphone and speaker
- Headset jack: 2.5 mm
- · LED test function
- Two Ethernet ports with integrated Ethernet switch: 10/100BASE-T RJ-45
- 5 VDC universal (100–240V) switching included

POWER SUPPLY

- Switching type (100–240V) automatic
- DC input voltage: +5 VDC at 1.0A maximum

PHYSICAL INTERFACES

- Two 10/100BASE-T RJ-45 Ethernet ports (IEEE 802.3)
- Handset: RJ-9 connector
- · Built-in speakerphone and microphone
- Headset 2.5-mm port

INDICATOR LIGHTS/LEDS

- Speakerphone on/off button with LED
- Headset on/off button with LED
- Mute button with LED
- Message waiting indicator LED
- LED test function

Cisco SPA504G 4-Line IP Phone

4-Line Business IP Phone with Enhanced Connectivity and Media for a New Level of User Experience

Highlights

- For business or home office use
- Full-featured 4-line business-class IP phone
- Monochrome backlit display for ease of use, aesthetics, and onscreen applications
- Connects directly to an Internet telephone service provider
- Dual switched Ethernet ports for connecting a computer behind the phone, reducing cabling costs
- Wideband audio for unsurpassed voice clarity and enhanced speaker quality
- Easy installation and highly secure remote provisioning
- Supports Session Initiation Protocol (SIP)

Telephony Features

- Four voice lines
- Line status: active line indication, with name and number
- Menu-driven user interface
- Speakerphone
- Call hold
- Music on hold
- Call waiting
- Caller ID name and number
- Outbound caller ID blocking
- · Call transfer: attended and blind
- Three-way call conferencing
- Automatic redial of last calling and last called numbers
- On-hook dialing
- Call pickup: selective and group
- Call park and unpark
- Call blocking: anonymous
- Call forwarding: unconditional, no answer, on busy
- Call logs (60 entries each): made, answered, and missed calls
- Redial from call logs

- Personal directory with auto-dial (100 entries)
- Do not disturb
- Digits dialed with number autocompletion
- Anonymous caller blocking
- On-hook default audio configuration (speakerphone and headset)
- Called number with directory name matching
- Ability to call number using name: directory matching or via caller ID
- Subsequent incoming calls show calling name and number
- Date and time with support for intelligent daylight savings
- Call start time stored in call logs
- Call timer
- Name and identity (text) displayed at startup
- Speed dialing, eight entries
- Intercom
- · Group paging

Cisco SPA525G2 5-Line IP Phone

5-Line Business IP Phone with Enhanced Connectivity and Media for a New Level of User Experience

The Cisco SPA525G2 5-Line IP Phone with Color Display is an excellent choice for businesses that require an enhanced user experience. Part of the Cisco Small Business Series, the SPA525G2 uses industry-leading SPA voice over IP (VoIP) technology from Cisco, with high-quality hardware providing additional connectivity via Bluetooth, PoE (802.3af), or a Wireless-G client (802.11g).

The Cisco SPA525G2 IP phone can easily grow with your business. New employees or employees who need to move to another location can simply plug in their preconfigured phones anywhere on the network, and the network will recognize the change. The phone also supports wireless network connectivity, providing unrestricted placement without the cost of running network cabling.

Standard Cisco SPA525G2 features include five active lines, dual switched Ethernet ports, 802.3af PoE support, a 3.2-inch QVGA color display, a full-duplex, high-quality speakerphone, a Bluetooth interface, a Wireless-G (802.11g) client, a 2.5-mm stereo headset port, and a USB 2.0 host port.

Highlights

- Full-featured and stylish business IP phone
- Cisco Mobile Link: Bluetooth enhanced integration with mobile phones to make and receive calls, import your personal contacts, and charge your mobile phone
- Enhanced network connectivity with Power over Ethernet (PoE), 802.11g Wi-Fi client with Wi-Fi Protected Setup (WPS), and Bluetooth headset support

- Graphics-rich, high-resolution 3.2inch QVGA 320 x 240 color screen
- Cisco AnyConnect VPN Client:
 Highly secure Internet phone
 connection for remote users that is
 simple and easy to set up
- Cisco XML services framework:
 Support for productivity applications directly on your phone
- Support for multimedia functions, such as playing MP3s, displaying digital photos, and viewing RSS feeds
- Wideband audio for unsurpassed voice clarity and enhanced speaker quality
- Support for Session Initiation Protocol (SIP)

Cisco SPA525G2 5-Line IP Phone

LIGHTED LINE KEYS
