

BUSINESS EMAIL POWERED BY MICROSOFT EXCHANGE HELPS EMPLOYEES TO BE MORE EFFECTIVE AND PRODUCTIVE.

Delivered from the cloud, **Dragonfly** is the best choice for business email.

<i>Migration and onboarding included at no additional charge</i>	<i>24/7 US based support</i>	<i>99.999% uptime guarantee</i>	<i>Preserve capital: no hardware to deploy</i>	<i>Minimize expenses: simple monthly fees</i>
--	------------------------------	---------------------------------	--	---

Dragonfly Computer's business email lets your company communicate and collaborate more effectively than with other email platforms. So you can maintain your competitive edge – now and into the future.

On-the-go productivity

Business is no longer confined to the office. Exchange is designed specifically for touchscreens, mobile usability and offline productivity. It helps ensure your employees can be efficient regardless of location or device—even when they are offline.

Save capital

There's no need to purchase servers and license software, or spend weeks building or upgrading your infrastructure. With a predictable monthly per-user fee, you offload the costs of an on-premises deployment.

Enhance core collaboration tools

As the world's leading platform, Exchange unifies business email, calendar, contacts and other Microsoft® applications. It provides your employees with all the tools they need to work and collaborate with other colleagues. They can do it their way—where, when and how they want to.

Simplify cloud services

There are certain IT services that you need simply to do business. Dragonfly Computers offers over 4 services that integrate together. Getting all your essential IT services from one provider simplifies your deployment—the result is one bill, one password and one point of support.
